In the references read above, the Engineer-in-Chief (R&B) State Roads, Hyderabad has stated that Kusumanchi – Beerolu road is an important Major district road, connecting two SH's i.e., Suryapet – Aswaraopet and Rayapatnam – Kodad through Dammaigudem – Solipuram road. It connects number of villages which is being utilized to the maximum extent with heavy traffic density in transportation of the people as well as the agricultural products to the marketing centers. The existing carriageway width is insufficient to cater the increased traffic density and in turn causing much inconvenience to the vehicular traffic. The people of this area as well as public representatives are repeatedly representing for widening of the above stretch immediately, as the road users are facing much inconvenience. As such, the widening of the road from Kusumanchi – Beerolu of Km 0/0 to 13/07 (working reach from Km. 0/0 to 9/5) in Khammam District is proposed. Further, a provision for attending the B.T renewal to the existing carriageway from Km 8/0 to 9/5 duly providing the WMM in Pocharam village limits is also provided for raising the road level as the stretch was previously renewed in the year 2007–08, and is ripe for renewal. The traffic density is 5200 PCUS / day. He has certified that the Stage –I approval is not required as detailed investigation is completed and designs are finalized.
